THE DANGER OF INVISIBLE LIGHT

may sound fantastic—but it's very real. In all light, besides the rays that bring color to your eyes, there are harmful, invisible rays that often cause eyestrain. Sir William Crookes, the famous scientist, has invented a form of lens through which this injurious invisible light cannot pass. We can fit these useful Sir William Crookes' lenses to either eyeglasses or spectacles.

AVERY CEMETERY ASSOCIATION.

Annual Meeting was held in Preston on Saturday Afternoon.

The Avery Cemetery Association (Incorporated) at Preston, held its annual meeting on Saturday afternoon, on the grounds by the shore of Avery's Pond. It is ten years since the little chapel was completed at a cost of \$270 the new gates with carved stone posts having been erected the previous year at a similar cost. The attendees at the meeting on that rainy day in June 1905, greatly appreciated the comfort of the chapel. In the following year the stones in the yard were cleaned at a cost of over \$70, and a new driveway laid out with elliptical turning wheels which allowed the arrangement of a number of new burial lots.

In 1908 the society lost its president, Walter Fish of Mystic, who had been an efficient officer. The Rev. L. C. Woodruff of New London vice president. In 1912 occurred the change of the name of the association from the Avery Cemetery Association to the Avery Cemetery Association.

The next appearance of the yard with its border of tall evergreens, the simple chapel, and the beautiful view toward and across the lake, impress visitors with surprise and satisfaction for too many country cemeteries present a forlorn aspect from long neglect.

Members of the association, descendants of the families buried here, are widely scattered, but letters are frequently received by the secretary showing continued interest in the work now carried on by a simple official staff.

DR. EPSTEIN ON ZIONISM

Learned Speaker Met With Generous Response at Net With Meetings.

Dr. B. Epstein spoke Sunday evening at 7 o'clock before a large gathering and again later in the evening before an interested audience in the rooms of the Young Men's Hebrew Association, explaining the importance of the Jewish National Fund and the scope and opportunities of Zionism. The object of the movement, as is well known, is the rehabilitation of Palestine, with the expectation that many of the Jews of Europe, when the war is over, will go there to dwell, and make the famous country again a center of the Jewish industrial, culture and attainments. At Sunday night's meeting Dr. Kahn of Westerly was introduced by Herman Alofsin and Dr. Kahn of Westerly, who was presented by Leon Sachner. Next Sunday Dr. Kahn will again address the Y. M. H. A. on a timely subject of great interest.

Dr. Epstein was at the Congregational Brotherhood of Joseph Saturday afternoon. He proved to be a thoughtful and moving speaker and his efforts in behalf of the National Fund met with a generous response, for the movement is favored by the majority of progressive thinkers.

MISCHIEF MAKER

New Strong and Robust

An adult's food that can save a baby proves itself to be nourishing and easily digested and good for big and little folks. A Brooklyn man says: "When our baby was about eleven months he began to grow thin and pale. This was attributed to the heat and the fact that his teeth were coming, but, in reality, the poor little thing was starving, his mother's milk not being sufficient nourishment."

"One day after he had cried bitterly for an hour, I suggested that my wife try him on Grape-Nuts. She soaked two teaspoonfuls in half a cup of warm water for 5 or 6 minutes. Then poured off the liquid and to it added a little amount of rich milk and a little sugar. This baby ate ravenously."

"It was not many days before he began to gain weight, and he is now strong and robust, and as cute a mischief-maker as a thirteen-month-old baby is expected to be."

"Use this letter any way you wish, for my wife and I can never praise Grape-Nuts enough after the brightening it has brought to our baby's face."

Grape-Nuts is not made for a baby food, but experience with thousands of babies shows it to be the best, if not entirely the best in use. It is a scientific preparation of Nature's grains, it is equally effective as a body and brain tonic for grown-ups.

FLP OF CON DECIDES WINNER

Harold Clark, Tied by His Brother Eddie, Gains National Roque Championship for the Second Time on Saturday Afternoon—Gerald Brassill of Norwich Led the Second Divisioners by Remarkable Playing—Committee Appointed for Next Year.

After the last of their tournament games were over Saturday afternoon, the Clark brothers of Springfield, Eddie and Harold, found themselves, at last year, tied for first place in the national tournament and thereby the roque championship of America. And as the hour was late and the sand courts, after a week of strenuous activities were being deserted by departing players, they spun a coin in the air and left the champions' choice to chance. Harold won the toss and with it the honor of being for the second time in succession the foremost roque player of the country.

Harold Clark Beat Brother.

The Clark brothers set an astonishing pace for their competitors, and Eddie especially, for he did not begin tournament play until the last thing on Thursday. He carried on his whirlwind style of play, or calmly indeed, that it seemed to be natural, without a mishap on Friday, although he had a narrow margin in his game with Louie Stockwell, Norwich, on Saturday.

Harold Clark beat his brother and then he had his first and only defeat. Harold had been going at a safer speed and he had a reserve power of execution which his brother had not. For tournament roque, between experts, put a man on his mettle, and the strain physical and mental tells away the first Van Winkle medal for another year, and in fighting through to a tie only at little better than three days' playing.

Praise For Norwich Players.

Behind the Clark group of four came together. These were: ex-champions Robinson and Williams, A. D. Spellman, who has the distinction of being the only player to defeat the invincible Harold Clark besides nearly doing it to Eddie. Stockwell gains the additional credit of being the tutor and coach of the two Norwich players, Brassill and Millard, who led the second and third divisions respectively, the former by defeating Capt. Wahly Saturday in his final game and the latter by getting his game with Dr. Faatz for forfeit. The work of the Norwich players has been particularly creditable this year.

Committee For Coming Year.

President Prentice announced his committee for the coming year at a meeting called at two o'clock Saturday afternoon by retiring President L. C. Williamson of Washington. They were: L. C. Williamson, chairman; C. G. Williams, Washington, D. C.; Chas. E. Everett, Robinson, Mansfield, D. C.; Everett, Robinson, Mansfield, D. C.; Rodman, Philadelphia and Dr. B. L. Miller, Kingston, N. Y.

Committee on grounds—Louie Stockwell, Norwich, chairman; Frank H. Foss, Willimantic, E. G. Adams, Kingston, N. Y.; Capt. H. Wahly, Washington, D. C.; and Arthur L. Peale, Norwich.

Finance committee—A. D. Spellman, Willimantic, chairman; C. C. Cox, Malden, Mass.; John M. Taylor, New York; J. F. Pratt, A. J. Morrison, Philadelphia; and James H. Case, Norwich.

Committee on correspondence—L. C. Williamson, Washington, D. C.; Chas. E. Everett, Robinson, Mansfield, D. C.; F. M. Thompson, Danbury, Conn.; R. C. Zartman, D. D. Philadelphia, P. C. Turner, Pasadena, Cal.

Committee on rules—C. C. Cox, Malden, Mass.; H. T. Webb, West Chester, J. C. Kirk, Philadelphia, Charles Jacobus, Wampole, Wisconsin, and Harold Clark, Springfield.

In regard to the appointment of an official editor, which was left to the president, Mr. Prentice said he would

FORMER PASTOR PREACHED.

Rev. P. C. Wright of Philadelphia at Central Baptist Church on Sunday.

At both morning and evening services at the Central Baptist church Sunday, Rev. P. C. Wright, a former pastor of the church, now located in Philadelphia, occupied the pulpit.

Supplying for Rev. Joel B. Slocum, D. D., who is enjoying his annual vacation, though the weather was hot and deep interest was manifest in Rev. Wright's sermons by his former parishioners, who are always ready to receive him heartily welcome back to his old pulpit.

At the evening service Rev. Mr. Wright took as his text, Ephesians 2:8, "Unto me, who am less than the least of all saints, was this grace given, to preach unto the Gentiles the unsearchable riches of Christ."

The Christian is always saying there is something better for him than he is, said Rev. Mr. Wright. Paul lived in the wonderland of Christianity, he continued. Paul was a man of constant experience. Yet this wonderful Christianity in which he lived was so wonderful that he lived in constant amazement. This is and ought to be the experience of every man who enters the realm of God. Paul was a man of passions like ourselves; but he was a man of God. He was taken out of the realm of sin into the realm of grace. Paul was not unconscious of the sin of men. Who can blame him for saying that? But Paul lived undaunted by sin and lived in triumph.

Rev. Mr. Wright said he marvels when he thinks of Paul. What we have got out of that sphere where we stand in awe and silence. I do not want to get out of touch with my fellow-men, he said. I love to keep in touch with all classes of men, but men and women, I want to live where Jesus Christ is constantly a marvel to me. I say frankly, the world doesn't know God. There are a whole lot of people who think of God as the God of Power, the God of Majesty; the God who sits upon thrones for a whole company of people in the world. On the other hand there are a lot of people who think of God as loving and so gentle that He cannot be angry. We don't know God. He is who we have never known Jesus Christ has never known God. It is one of the unsearchable riches in the Christian's life that he may know God. It is one of the unsearchable riches of the realm of redemption that there may be the destruction of sin's power.

AT LAST HE'S SHEDDING HIS SKIN!

C. V. Pendleton's Copperhead Started to Slide Out in the Dark.

After several delays and postponements, during which his milky eyes became clear again and everyone around him assumed at attitude of watchful waiting, that record-breaking copperhead snake in C. V. Pendleton's store on Broadway began to slide out of his old skin Sunday night. The peeling starts at the head and the reptile and after it is all over, there is a lid covering turned inside out, like the finger of a glove. It is quite a lengthy process, at least, for this snake, for he's the longest of his species known. He started when no one was watching and by rubbing up against a couple of fairly large flat stones that are in his box, he had managed to get several inches off before anyone got wise. At half past eleven he was a foot in the clear, and to the rate he was going, he'll be quite a new snake this morning. His markings showed up beautifully on the fresh surface in contrast with the old skin, and from now on he will cease his sluggish ways, they say and become a real lively little fellow.

MISS O'CONNOR IMPROVING

Her Condition Followed the Fracture of Her Skull Was Encouraging Sunday.

Miss May O'Connor continues to improve at the Backus hospital following the fracture of the skull received last week and she is able to talk to people, but Dr. Cassidy who is attending her has forbidden any mention of automobile accident to her.

Margaret Kearna, who is being attended by Dr. Callahan is also gaining consistently. It has been stated by a person who was on duty in the square at the time that the Williamson young men were going west at the time and the two girls were going the same way, and the former told the girls to get in and said they would take them home. When the young women got in, the boys circled around Franklin square and went east.

Mrs. Dearing was the daughter of the late Mr. and Mrs. William Stevens, and was born in Saxony, Germany. Her parents formerly resided in Canterbury and Jewett City.

At the German Lutheran church this city, on July 12, 1878, she was united in marriage with Henry Dearing, by Rev. Alfred Tilly, then pastor of the church, since their marriage, Mr. and Mrs. Dearing had made their home in this city. At the time of her death she was a member of the Broadway Congregational church.
